

2026-2027 JH ASP CLUBS

HOMEWORK HELP – Students will be able to work on their homework, and other classwork with the help of Staff, and a Tutor.

CRAFTS – Students will dive into hands-on DIY projects like resin art, papercrafts, yarn art, and custom pins. Come bring your own creative ideas to life.

BUILDING – Participants will be able to build STEM based creations using Legos, Magnetic Tiles and Blocks, and the Contraptions Game.

3D DOODLER CREATIONS - Ready, set, create! Students will use 3D pens to create Stem based items and objects like glasses, jewelry, characters, buildings, and much more!

EDIBLE EXPERIMENTS - Science is delicious, chemistry is tasty, and your classwork is a snack. We mix, melt, cool, and test food to see how chemicals and ingredients work together.

CLASSROOM JEOPARDY - Come test what you know against your peers in this fun, low-risk, knowledge-based club. Questions are age appropriate and could be as simple as 1+1 to as difficult as who invented the chickpea. Come have fun learning new information, testing what you know.

RC CARS - Create obstacle courses and test your engineering skills with RC Cars. You and your groupmates will see where bridges or ramps failed, fix them, and try again in this fun teamwork STEM club.

FLOATING ORBS AND DRONES - Students step into the world of autonomous flight, physics, and visual arts by bringing light and motion to life through floating orbs and drones.

SKI/SNOWBOARDING CLUB* - Learn to ski with the Claverack Ski Club. Club includes transportation, lessons, lift tickets and rentals included. *Must attend ASP for at least 30 days prior to start of Club.

PHOTOGRAPHY CLUB - Come explore the secrets of lighting, cool angles, photo editing, and storytelling through pictures. From action shots at sports games to creative portraits and nature photography, you'll build your skills and build a portfolio of your favorite shots.

STEM CREATIONS - Where science, tech, engineering, and math get hands-on and creative. If you love building, breaking things down to see how they work, or solving wild challenges, this is your zone!

SPORTS FOR ALL - The ultimate club for everyone who just wants to play games, stay active, and hang out with friends! Let's promote physical activity, teamwork, and social connections.

MULTI-PLAYER/TEAM BOARD GAMES - Roll the dice, send a friend back home, or buy a hotel. From family games to deep strategy, all will have fun learning and playing a variety of games.

SIGN LANGUAGE - Uncover the power of American Sign Language (ASL)! Join us to learn basic signs, fun fingerspelling games, deaf culture, and how to sign your favorite songs.

CULTURE IN THE KITCHEN – Students will learn how to prepare authentic, youth-friendly dishes from every continent while exploring the rich traditions, history, and flavor profiles that make each culture unique.

BAKING - From flaky pastries and savory breads to decorated cupcakes and sweet treats, bakers will learn essential kitchen skills while building confidence behind the counter.
