
Community Based Children's Case Management

Family support workers provide services for youth at high risk of out-of-home placement who will benefit from service coordination. A family worker provides support, linkage to service, advocacy, direct care (transportation, tutoring, role-modeling) and flex funding for necessities to keep the child and family safe and healthy. The goals include improved behavior and school attendance, reduced out-of-home placements, family members linked to appropriate services, and improved communication between school and family members. Services are provided until the family members attain goals and are linked to appropriate service providers to maintain the health and safety needs of all family members.

Community Based Children's Case Management Services

Family Support Workers

Family Support Worker

Two Family Support Workers serve 10-12

families each. Building on family strengths, the FSW assists families in achieving their self-determined goals. Supports may include, but are not limited to:

- Socialization outings for your child, both individually and with other children.
- Home Visits
- Goal Setting
- Service Coordination
- Transportation
- Parent Education
- Role Modeling
- Advocacy

FSW's offer supports to the entire family. Referrals to FSW's come from SPOA (Single Point of Access). FSW's can work with your child until age 18.

The mission of the Mental Health Association of Columbia-Greene Counties, Inc. is to provide education and advocacy, and to create opportunities that enhance the mental health and well-being of individuals, families, and communities.

How do I become eligible for FSW services?

-You must reside in Greene County and be referred by the Single Point of Access (SPOA) team.

What are the costs of FSW services?

-Services provided by FSW's are of no cost to you, and are voluntary.
